Dear Cincinnati Residents and Businesses,

The City of Cincinnati is offering you an opportunity to participate in an Electric Aggregation Program. In 2011, Cincinnati voters authorized the City to form a governmental aggregation program and negotiate favorable electric supply prices for eligible residences and businesses. Through a competitive process, the City selected Dynergy as the program supplier through your May 2024 meter read. Both the City of Cincinnati and Dynergy are certified by the Ohio Public Utilities Commission to provide this service.

As an eligible resident or small business, you will be automatically enrolled in the program unless you choose to opt-out (not participate) by << Opt Out End Date>>.

Program details:

- o Program participants will receive 100% green energy at a rate of 4.957¢ per kilowatt through your May 2024 meter reading.
o This 100% green energy program is offered through the purchase by the supplier of renewable energy credits.
o This rate may be lowered at the supplier's discretion during the term of the program depending on the successful completion of a solar power generation facility that is dedicated to supplying participants of the City's government aggregation program.
o You still receive just one electricity bill from Duke Energy.
o No cancelation fee at any time!
o Duke Energy will continue to deliver your electricity and maintain the electric lines and respond to emergencies.

Program Enrollment

After your enrollment is finalized, Duke Energy will send you a letter confirming your enrollment and informing you of your ability to cancel your enrollment with no penalty.

Don't want to participate?

If you choose to opt-out of the program at this time, or if you choose to leave the program at a later date, you will be served by Duke Energy under its standard service offer until you choose an alternative supplier of electric service. If you switch back to your utility, you may not be served under the same rates, terms, and conditions that apply to other customers served by your utility.
