NOTES:

- 1) Dynergy owns 100% of each unit listed, except that it owns a 50% interest in the Black Mountain facility and the Danskammer Units 3 & 4 and Roseton facilities are leased and not owned. Total Net Capacity set forth in this table for Black Mountain includes only Dynergy's proportionate share of such unit's gross generating capacity.
- 2) Unit capabilities are based on winter capacity.
- 3) Represents Unit 6 generating capacity. Units 1-5, with a combined net generating capacity of 228 MW, are currently in mothball status and out of operation.
- 4) These units are currently out of operation and in mothball status.
- 5) Represents Units 3 and 4 generating capacity. Units 1 and 2, with a combined net generating capacity of 352 MW, are currently in mothball status and out of operation.
