Brookline Green Electricity

Community Electricity Aggregation Program

Dear Basic Service Customer,

August 14, 2018

The Town of Brookline approved a Community Electricity Aggregation program authorizing our community to aggregate the electricity load of those residents and businesses that are on Basic Service with Eversource (NSTAR Electric Company). The goals of the program are to provide you with competitive choice, longer-term price stability and more renewable energy.

You will be automatically enrolled in the Brookline Community Electricity Aggregation program unless you choose not to participate.

After a competitive bid process, Dynegy was selected as our Electricity Supplier with a contract starting on the date of the scheduled July 2017 meter reading and expiring on the January 2020 meter reading. A comparison of the rates for the aggregation program and the current rates for Eversource (NSTAR Electric Company) Basic Service are shown below.
