

# Electric Supply Municipal Aggregation Program

## Frequently Asked Questions

### **What is Municipal Aggregation?**

Illinois law allows municipalities and counties to negotiate the purchase price of electricity on behalf of residents living within their borders. While these governmental entities choosing electric supply aggregation are responsible for negotiating the price of power from a supplier other than the traditional utility, your utility is still responsible for delivering that power to you and billing you for it.

### **How can I get more information about my community's aggregation program?**

Contact your community for information related to the referendum and the aggregation program. Additional resources can be found at [www.Dynegy.com](http://www.Dynegy.com).

### **Who is eligible to participate?**

Residential or small business accounts located in participating governmental entity boundaries may participate. Customers enrolled in Hourly, Net Metering, or served by an alternative retail supplier may not be eligible. Net Metering customers, as described in Section 16-107.5(d)(3) and (e)(3) of the Public Utilities Act, may forfeit credits if they participate in a municipal aggregation.

### **How do I enroll?**

It's simple and automatic. Unless you opt out, all eligible ComEd customers will be enrolled in the program. You will receive a "switch" letter from ComEd confirming your enrollment.

### **Do I have to participate in the municipal or county aggregation plan?**

No. You may opt out by returning the Opt out Card by the deadline date on page 1 of your notification or calling Dynegy. If you choose to opt out, your account will remain with your current supplier. All customers who do not opt out of the program will have been deemed to have authorized and agreed to being enrolled in the aggregation program and having their electric supply service switched to Dynegy under the applicable terms and conditions.

### **When will the new rate start for my community?**

### **What is renewable or "green" energy?**

Renewable energy is generated from natural resources such as solar, wind, water. Dynegy Energy retires renewable energy certificates for customers selecting a renewable rate.

### **What if ComEd rates decrease?**

You always have the option to return to ComEd service. There is no early termination fee for leaving the aggregation.

### **What happens at the end of the Agreement term?**

At the end of the Agreement term, as defined in the Terms and Conditions, you have the option of staying with the Municipal Aggregation program, returning to ComEd, or enrolling with a new Retail Electric Supplier.

### **Who will bill me for electricity? Will I get two bills?**

You will continue to receive one monthly bill from ComEd. The bill will include the charges for electricity supplied by us, as well as the delivery service charges from ComEd.
