Welcome to the
Village of Rosemont
Electric Municipal Aggregation Program

April 16, 2021

Hi Village of Rosemont Resident,

We've got good news for you. After a competitive selection process, your community has chosen Dynergy as its supplier for its electric municipal aggregation program through October 2023. That means Village of Rosemont, IL negotiated a price-protected electricity rate on your behalf and you don't have to worry about fluctuating rates. You'll automatically be enrolled in the program as a Village of Rosemont resident – and there are no switching or early termination fees.

Here's What You Can Expect

As an eligible participant, there are two supply options available to you – a Traditional option where the energy is supplied through traditional generation sources and a 100% Renewable option where 100% of your energy comes from renewable energy sources. Participants will be automatically enrolled in the Traditional program unless you call and request the 100% Renewable or "Green" energy option.

- The rate for the Traditional Power Program is \$0.06143 per kWh and is guaranteed until October 2023.
- The rate for the Renewable Power Program is \$0.06434 per kWh and is guaranteed until October 2023.
- Your current billing method will not change. You will continue to receive one monthly invoice from ComEd, your local utility. You will notice the line item under the supply portion will list Dynergy along with this negotiated rate on your invoice following successful enrollment in the program.

Your Options as a Customer

If you choose not to participate in this program, please contact Dynergy by returning the enclosed opt out card or calling (844) 351-7691 **by May 7, 2021**, regardless if you've opted out of programs in the past. To learn more about the program, please review the enclosed Terms and Conditions or visit our website at www.Dynergy.com.

You also have the option to purchase electricity from a Retail Electric Supplier, or from ComEd without penalty pursuant to Section 16-103 of the Public Utilities Act. Information can be found at www.PlugInIllinois.org and www.ComEd.com. You may request from the Illinois Power Agency, without charge, a list of all supply options available to you in a format that allows comparison of prices and products.

Dynergy is an independent seller of power and energy service and is certified as a Retail Electric Supplier by the Illinois Commerce Commission (ICC Docket No. 14-0336).

We look forward to serving you!
